Subject: FW: West Lake Update

CT: please work with OPA and RA Office this week to schedule a full briefing for Mark and me before COB Mon, 23 June, about the report's conclusions on gamma screening. We will aim to brief elected officials, including Bridgeton City, on 24 June and inform the public on 25 June.

LaT: toward end of this week, be sure we are on this schedule so you can schedule the elected official telephone briefing. Recall: I am at 4 State meeting on 24-25 June, so we will need to decide if CT and I join this briefing or CT/OPA handle it.

Thx,
Karl

Subject: RE: West Lake Update

Good morning,

I wanted to follow up with you on BMAC. I understand the report is due about 30 days after the testing and we are closing in on that date.

You have assured me that a Congressional Briefing will occur before the release of the results. I appreciate your willingness to keep us informed.

Bridgeton City Officials have requested a possible release date. Due to summer schedules it would be helpful to know of a target week or a target date that the data will be released. If the testing shows "good" results there will be an opportunity for the City officials to reassure the Community as Bridgeton puts on a large 4th of July fireworks display on BMAC.

Again, thank you for your assistance in this matter.

Kerry

Subject: West Lake Update

Hello:

EPA Region 7 has created the West Lake Update in an effort to inform the community about the progress of environmental activities taking place at the West Lake Landfill Superfund Site in Bridgeton, Mo.

The information about the West Lake Update is also being shared with other elected officials, the Community Advisory Group, Missouri Coalition for the Environment and other stakeholders.
